- Toxicity to daphnia and other aquatic invertebrates: no data available
- Toxicity to algae: no data available
- Toxicity to microorganisms: no data available

12.2 Persistence and degradability

no data available

12.3 Bioaccumulative potential

An estimated BCF of 63 was calculated in fish for clozapine(SRC), using a log K_{ow} of 3.23(1) and a regression-derived equation(2). According to a classification scheme(3), this BCF suggests the potential for bioconcentration in aquatic organisms is moderate(SRC).

12.4 Mobility in soil

Using a structure estimation method based on molecular connectivity indices(1), the Koc of clozapine can be estimated to be 1.3×10^4 (SRC). According to a classification scheme(2), this estimated Koc value suggests that clozapine is expected to be immobile in soil. The pKa value of 7.60(3) indicates that this compound will exist almost entirely in the cation form in the environment and cations generally adsorb more strongly to soils containing organic carbon and clay than their neutral counterparts(4). Clozapine has been shown to adsorb to biosolids in wastewater treatment sludge; log Koc values of 3.56, 3.54 and 3.41 have been reported in sludges from Denver, CO and Mines Park, AS(5), corresponding to Koc values of 3,630, 3,567 for the Denver sludge samples and 2570 for the Arkansas sludge sample(SRC).

12.5 Other adverse effects

no data available

SECTION 13: Disposal considerations

13.1 Disposal methods

Product

The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems.

Contaminated packaging

Containers can be triply rinsed (or equivalent) and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials.
